Wholesale Burglaries—The Coulen Massacre—Pastoral Call
Accepted—The New Constitution—Episcopal Convention.
Baltimore seems, at the present time, to be throughd
with professional burglars, who have a particular fancy
for watches and inwales. On Tanada path the for watches and jewelry. On Tuesday night the jewelry store of Jacob Walters, on Eutaw street, was entered by means of a "jimmy" and false keys, and about \$1,000 worth of goods, including four gold, and twelve silver

lepines, was stolen. On the same night the jewelry establishment of Mr. C. E. Hughes, a few doors west of Mr. W.'s, was forced open,

B. Hughes a few doors west of Mr. W.'s, was forced open, doubtiese by the same party, and about \$300 worth of goods removed. The dwelling of Mr. J. W. Brull, on South Green street, was also broken open on Tuesday, and robbed of various articles.

Ford and Webster, two of the parties so long under arrest on suspicion of connection with the Coeden massacres, have been discharged. The man who has confessed, also clears Drummond, and says that he sharted with them, but on it being determined to murder the family, he refused to go any farther, stating that he was willing to reb, but not to murder.

The Rev Samuel Washburn, of New York, has accepted the unanimous call to the associate pastorship of the Fifth Preshyterian Church of this city, so long under the charge of the venerable Dr. Hamner. He will enter on his duties on next Sabbath week.

Within the last few days there has been quite a revulsion in popular feeling here, in favor of the new constitution so much so, that it is confidently anticipated that, in this city alone, a majority of at least four thousand will be relied up in its favor. The working masses of the whige stand up for it with more energy, if possible, than the democrats do, all party feeling having been sunken, in this important question, in a general desire to promote the good of the whole. The leading opponents of the new constitution have been found to be men who will lose some special and pecuniary privilege by its adoption, including the old hunkers and office holders and seekers of both parties; consequently, the great mass of the voters of all parties will rully in its layor.

The sixty-third Annual Convention of the Protestant Episcopal Church of the diocess of Maryland assembled here yesterday morning, and ninety-seven delegates were in attendance. Shortly after the organization, the Rev Bishop Whittingham delivered his annual address, from which it appears that the number of clargy in the diocess is 120; number of rectors. nesday next) approaches, the excitement on the subject is becoming very great. An immense town meeting was held last night, and another is called for to-night, without respect to party; and it is truly a glorious sight to see old party lines thus broken down. The fact that this new constitution will break down and disorganize the famous "Court House Clique," with all its branches in the counties, has caused the whigs to raily in great strength to its support, as there can be no doubt that strength to its support, as there can be no doubt that we have had two democratic Governors in succession, who owe their election altogether to the struggles of this monstrone whig faction to retain its control of the State. Hugh Ferguson, Richard Donnyeliff, and George Craig, were yesterday arrested, charged with a participation in the robbery of the two jewelry establishments on Tue-day night. The two first named are Philadelphians, and the latter a Baltimorean. They were bound over in the sum of \$5,000 each. None of the jewelry has yet been found.

The Protestant Episcopal Convention of the dioces of Maryland, after a session of two days, closed their business last evening. Bishop Whittingham who presides, allows of no waste of time, and more business is transacted at these conventions in one day, than in other conventions in a week.

Mayor Jerome, yesterday, removed Capt. R. A. McAlli-

Mayor Jerome, yesterday, removed Capt. R. A. McAllister, of the Eastern district watch, from office, on account of neglect of duty. Some of the new police who seem to regard their positions as sincoureships, will also soon share the same fate.

Temperance Celebration, etc.

The temperance demonstration to-day is worthy of the cause, and the good achieved by it; but as it is not a ceicbration of any anniversary, a more suitable season than the present should have been selected. The marching of four or five thousand men and boys through the noon-day sun, with the mercury at about 90, is almost mardisciples of the cold water regimen, despite the heat and the length of the route, have stuck to their various divithe length of the route, have stuck to their various divisions, and rendered the turn-out most admirable. The
regalla and countless banners add beauty to the line,
and in addition, there are many appropriate embisemthat do credit to the designers. One is a well on a
huge car, containing about 600 gallons of lee
water, which is served out to the thirsty tempersance men. The upper portion is shaded with
trees, and the "old oaken bucket" is used to draw
the water, as in the days of "auid lang syne." The
bead of the procession will hardly reach the Museum
before 4 o'clock, where addresses are to be delivered by
David Paul Brown and the Rev. John Chambers. A
shower of rain commenced failing before the procession
reached the Museum and apolied much of its beauty.

the order of the New York Co. about to establish the Nicaraguan route to the Pacific is now very nearly completed.
The hull is all together, and the engine and stern wheel
are being fitted to their places, so that there will be no
delay on its arrival at the scene of its usefutness. The
hull is made to take apart in four places, for the purpose
of shipment. C. Vanderbilt, Esq. of your city, is at
present here making arrangement for chartering a vessel
to convey the steamer to Nicaragua. Two other boats of
smaller dimensions, built at Wilmington, Dei, for the
game company, are also ready for shipment.

Sale of a Steamship for the Boston and Liverpool Line-The New York and Richmond Line.

Messes. Harnden & Co., of Boston, have purchased a propelier steamship of the largest class, now on the stocks in Kensington, as the pioneer of their new propeller line between Boston and Liverpool. She was commenced some six months since for Capt. R. F. Loper and E. Lincoin & Co., of this city, on speculation, and has now been disposed of by these gentlemen. In model, substantial build and power of machinery, she exceeds any vessel previously built here. She will be launched about the 16th of June, and be ready to start for Boston early in July. The principal portions of her engine are all on

Mesors. Mailler & Lord, of New York, have contracted with Capt. Loper for two steamships, intended for the line between your port and Rickmond and Norfolk. The first will be launched the 15th proxime, and the keet of the second will be laid immediately, and inished with the greatest despatch. The engines are in progress for the latter, and those for the former have already been completed at the Fenn works of Mesors. Reaney, Neafle & Co.

News races Messee —By the arrival last evening of the schooner Faustina, from Vera Cruz, we have received our full files of papers from the city of Mexice to the 3d inst. For some days a good deal of excitement was caused in the city of Mexico, by reports that a party of Americans had landed on the lethnus of Tebuantepee, and taken forelike possession of all that section of country. One of the papers, the Successful, reported that there had been a fight, and that fary men had been killed on each side. Another rumer had it that the number of Americans was 4,050 and upwards. These reports originated in the landing of the Gold, Hunter at Ventesa, and the difficulties consequent thereon, an account of all which we have aiready given in letters from the lathnus. The correspondence of the Trait of Cross says that the Americans was 4,050 and in the has same and the Mexican authorities.

Rome persons say that by the terms of the concession to Garay, the Americans had a right to land at Ventesa, and that although the Senate has annulled that grantits decision is not definitive, and that the question thus becomes a national one. On this subject the Trait of Union remarks:

We will not now treat the subject in this point of view; but we will say, that if the authorities of Februantepe have acted as they ought, those of Onjaca have preceeded with freat want of fact and courtery. This is the result of the evil course, which for some time has been pursued by a portion of the Mexicon press. Instead of cultivating the friendship of the United States, a neighboring republic, whose evident interest is to ramain on terms of amity with Mexico, the press of which we speak, on the contrary, endeavers to spread injurious reports of a nation which the treaty of Quadsiupe impose on them the necessity of respecting, at least They are to cherish among the Mexican people a harred which, perhaps, may one day be fatal to their nationality."

Atterner by a White to Poison Her Hubard.—A tailor, named William Wilmot, left his home, in Howard's alley, on Wednesday evening, for the purpose of joining his ship, which was to sail on the following morning. Finding that there was some delay about the ship sailing, he unexpectedly returned to his home, and found his wife consoling herself by the society of several friends, male and female, whom she had guthered round her. The husband soon afterwards directed her to get some liquor, with which to treat her friends, and on its arrival he detected her putting a white powder into his glass. This he fried to get hold of, but failed to do so; and the wife being defeated, set upon him, with the assistance of some of her friends, and gave him a severe beating. The women sil de camped and the police being informed of the matter, gave chase, and succeeded in arresting Wilmot's wife, in company with one Rebecca Howe, of Water street, New York, on their way to the Fulton ferry. On rearching Howe, a powder was found, labelled "Oxalic acid—poison—from A. B. k. D. In Duxbury, Mass., May 2. Capt. Joanua Brewster, of that place, aged 88 years. He was a descendant of Elder Wm. Brewster, one of the Pigrims who came over in the Mayflower, and landed at Plymouth in 1620, being the fourth generation, in a direct line. At the age of twelve years he shipped on board an American privateer, in Plymouth harbor, after which he was in the States' ser vice, in the sloop-of-war Providence. Subsequently he was in the land service, quartered at West Point, New York, and on bosh the Jersey prison ship.

At Butier. Pa., May 21, Hon. Judge Bradin.

The late Hon. Stephen Branch, or Rhode Island.—We are sincerely pained to record the death of the Hon. Stephen Branch, which occurred at Central Village, Connecticut, where he was visiting, on the 27th. Judge Branch was one of the most prominent political men of this State, and had held the office of Chief Justice of the Court of Common Pleas for Providence county, and representative and senator in the General Assembly. To the latter office, he declined a re-nomination at the last election. In all his public duties, Judge Branch was conscientiously attentive, industrious and faithful. He was entrusted with many important services, and always discharged them promptly and satisfactorily. As chairman of the Judicary Committee in the Senate, he occupied the most laborious position in that body, and he never shrunk from the labor which his office imposed. Judge Branch was one of the earliest and most steadfast friends of temperance; and in all the walks of life he bore the character of a good citizen and a useful man.—Providence (R. I.) M. EDICAL LECTURES ON SEMINAL DISEASES.—
The first number, fifty pages, by R. Glover, M. D., gives the symptoms, consequences, and cure of a class of diseases little understood by medical men. It is likestrated by cases and engraving, which bring it within the comprehension of every class of readers. In the treatment a new instrument is introduced, which has been found eminently successful in restoring deblitated organs, and breaking up that morbid association established in early youth. For sale by the author, 12 Ann street, where he is consulted in this class of diseases. Price, 25 cents.

D. R. RALPH, AUTHOR OF THE "PRACTICAL PRIME THE ACTION OF THE "PRACTICAL PRIME" in the matter of surprise to seem, that any one of recepetability and of professional attainments should devote his attention to the diseases which people of sory description pretend to cure so easily. If, however, the thousandth particulation of the miscerice these people bring upon recisely were known, a very different opinion would be formed. And it is not only the protent matery and disection, preying can the mind as well as the heavy, but come are of such nature as to affect protective, and even to deatry the reproductive chantley altogether. It is a fact that, when not properly treated, they may remain so dermant in the constitution as to appear in no other way than in their effects upon posterity; yell, fromerly and appearing the author has easy of a first treated to case of stricture, however complicated or old-standing it may be; and that, in any stage of certain dispasse, or their consequences, as well as the deployable effects resulting from early improper habits, he can insure much certain, safe, and radical cures as can be obtained from a characteristic that he case and a characteristic the case of early the proper habits, he can insure much certain, safe, and radical cures as can be obtained from a characteristic that he case and a characteristic the own of the old and deven and the delicate in the control of the original property in the carry stages will be currelized at the case and a character in this effect.
